1. DOCUMENT CONTROL & REVISION HISTORY

Document Title:	APPROVED OFFICIAL SCOPE OF WORK
Document Number:	HP-SCO-2025-001
Revision:	Rev. 03
Date of Issue:	September 21, 2026
Prepared By:	Engineering & Operations Division
Approved By:	Board of Directors – Halyk Petroleum LLP
Classification:	CONFIDENTIAL – INTERNAL USE ONLY
Validity Period:	24 months from date of approval
Client Reference:	Multiple International Clients
Contract Type:	Framework Supply Agreement (FSA)

Revision History

Rev.	Date	Description	Author
01	2025-01-15	Initial issue – Draft scope definition	Engineering Division
02	2025-04-20	Updated refining capacity & product specifications	Operations Division
03	2026-09-21	Final approved version – Full scope alignment with board strategy	Board of Directors

2. COMPANY OVERVIEW

HALYK PETROLEUM LLP is a Kazakhstan-based integrated oil and gas company, primarily specialized in oil refining, exploration and development of oil and gas fields, and the production and sale of petroleum products. The company is one of the Kazakhstan oil industry's leading enterprises in efficiency and service delivery.

Halyk Petroleum operates a modern refinery complex producing a wide range of environmentally friendly, highly competitive products including Crude Oil, Aviation Oil, Motor Fuel, MAZUT M100, Bitumen, LPG, Pet Coke, NPK, Sulfur Granular, Liquefied Natural Gas (LNG), Urea 46%, and Aviation Kerosene.

Registered Name:	HALYK PETROLEUM LLP
Business ID (BIN):	240640030507
Headquarters:	Astana, Baykokyr District, Akzhol Avenue, Building 44, Kazakhstan
Contact Phone:	+7 775 218 5914
Email:	info@halykpetroleum.kz
Website:	www.halykpetroleum.kz
Geographic Reach:	Kazakhstan (Asia), Europe, Americas
Core Competencies:	Exploration, Refining, Production, Sales & Marketing

★ Halyk Petroleum holds 13 exploration licenses in the Caspian Sea, Far Eastern, and Southern seas of Kazakhstan ★

3. PURPOSE & OBJECTIVES

This Approved Official Scope of Work defines the comprehensive range of services, deliverables, and operational standards that Halyk Petroleum LLP commits to providing under its framework supply agreements with international clients. The document serves as the authoritative reference for all project execution, quality benchmarks, and contractual obligations.

Primary Objectives:

- Define the complete scope of exploration, refining, and supply services with measurable deliverables
- Establish quality assurance benchmarks aligned with international standards (ISO, API, ASTM)
- Outline HSE protocols ensuring zero-incident operations across all project phases
- Set clear commercial terms, delivery schedules, and performance metrics
- Ensure regulatory compliance with Kazakhstan petroleum laws and international trade requirements
- Provide a transparent framework for client engagement, reporting, and dispute resolution

4. SCOPE OF WORK – EXPLORATION SERVICES

Halyk Petroleum provides comprehensive oil and gas exploration services across Kazakhstan, utilizing cutting-edge technology and geological expertise to identify and develop high-potential oil reserves. Our exploration strategies ensure efficient resource discovery while adhering to environmental and safety standards.

4.1 Seismic Surveys & Geological Assessment

- 2D and 3D seismic data acquisition, processing, and interpretation
- Field seismic surveys for optimal surveillance system procurement
- Geological and geophysical modeling of subsurface formations
- Reservoir characterization and volumetric estimation
- Risk assessment and prospectivity mapping of licensed blocks

4.2 Drilling & Well Testing

- Exploratory and appraisal well planning, design, and execution
- Directional and horizontal drilling operations
- Well logging, coring, and formation evaluation
- Production testing and flow rate assessment
- Well completion and integrity assurance

4.3 Reservoir Development Planning

Comprehensive field development plans including production forecasting, facility sizing, and economic modeling to ensure optimal resource recovery and commercial viability.

Service Area	Technology/Method	Deliverable
Seismic Acquisition	2D/3D/4D Seismic	Processed seismic volumes & interpretation reports
Geological Modeling	Petrel / RMS	Static & dynamic reservoir models
Well Planning	Directional Drilling Software	Well trajectories & drilling programs
Formation Evaluation	LWD / Wireline Logging	Petrophysical analysis & pay zone identification
Production Testing	Multi-rate / DST	Flow test reports & reservoir parameters

5. SCOPE OF WORK – OIL REFINING & PROCESSING

Halyk Petroleum delivers high-quality oil refining services utilizing state-of-the-art technology to produce premium petroleum products. Our refinery operates with advanced processing techniques ensuring maximum efficiency, safety, and environmental compliance.

5.1 Crude Oil Processing

- Atmospheric and vacuum distillation of crude oil feedstocks
- Catalytic cracking and reforming for gasoline and diesel production
- Hydroprocessing (hydrotreating and hydrocracking) for product quality enhancement
- Sulfur recovery and amine treatment for environmental compliance
- Blending and additive injection to meet product specifications

5.2 Gas Processing

The company processes a range of gas types including dry gas, wet gas, shale gas, stripped gas, and marketable gas. Advanced separation and treatment technologies ensure optimal recovery of valuable hydrocarbon components.

5.3 Product Specifications

Product	Standard	Key Specification	Application
Euro-5 Diesel	EN 590	Sulfur < 10 mg/kg, Cetane ≥ 51	Automotive & industrial
Aviation Kerosene (Jet A-1)	ASTM D1655	Flash point ≥ 38°C, Freeze point ≤ -47°C	Aviation fuel
RT / TS-1 Aviation Fuel	GOST 10227	Thermal stability, low sulfur	Military & commercial aviation
MAZUT M100	GOST 10585	Viscosity, ash content, sulfur limits	Industrial & marine fuel
Bitumen	ASTM D946	Penetration grade 60/70	Road construction
LPG	EN 589	Propane/Butane mix specifications	Heating & automotive
High-Index Base Oils	API Group II/III	VI ≥ 120, low sulfur & aromatics	Lubricant manufacturing
Sulfur (Granular)	ISO 26950	Purity ≥ 99.5%	Chemical industry & agriculture
Urea 46%	ISO 27536	Nitrogen content ≥ 46%	Agriculture & SCR systems

6. SCOPE OF WORK – PETROLEUM PRODUCTS SUPPLY

Halyk Petroleum is a trusted leader in petroleum product sales and marketing, delivering high-quality refined products to local and international markets. Our strategic supply chain, competitive pricing, and commitment to excellence ensure reliable distribution across Asia, Europe, and the Americas.

6.1 Supply Framework

- Supply of petroleum products on FOB (Free on Board) and CIF (Cost, Insurance, Freight) basis
- Flexible contract structures: spot, short-term, and long-term supply agreements
- Volume commitments from 10,000 MT to 500,000+ MT per annum per product
- Dedicated account management with 24/7 order processing capability
- Multi-product bundling with competitive volume-based pricing tiers

6.2 Products Portfolio

Product Category	Products	Delivery Terms	Min. Order Qty
Fuels	Diesel (Euro-5), Gasoline (RON 92/95), Jet A-1, MAZUT M100	FOB / CIF / DAP	10,000 MT
Gases	LPG, LNG, Propane, Butane	FOB / CIF	5,000 MT
Bitumen & Heavy	Bitumen 60/70, Vacuum Residue	FOB / CIF	5,000 MT
Petrochemicals	Sulfur Granular, Urea 46%, NPK Fertilizer	FOB / CIF / CFR	5,000 MT
Base Oils	Group II / Group III Base Stocks	FOB / CIF	2,000 MT
Specialty	Pet Coke, Solvents, Aviation Oil	FOB / CIF	3,000 MT

6.3 Quality Guarantee

All products supplied by Halyk Petroleum are accompanied by Certificates of Analysis (COA) issued by accredited third-party laboratories. Products are guaranteed to meet or exceed the specifications outlined in Section 5.3. Any non-conforming product will be replaced or refunded at Halyk Petroleum's sole discretion and cost.

7. SCOPE OF WORK – LOGISTICS & DELIVERY

Halyk Petroleum maintains a robust logistics infrastructure to ensure timely and secure delivery of petroleum products to global destinations.

- Coordination with certified tanker fleets for maritime and overland transport
- Port operations management at key Caspian, Black Sea, and Baltic terminals
- Customs clearance and export documentation support
- Real-time shipment tracking and ETA updates for all consignments
- Insurance coverage (marine cargo) for full transit period
- Demurrage management and laytime optimization

Delivery Performance Targets:

Metric	Target	Measurement
On-Time Delivery Rate	≥ 98%	Per quarter, measured from confirmed delivery date
Product Quality Compliance	100%	Zero non-conforming shipments per contract period
Documentation Accuracy	100%	Error-free COA, B/L, and customs documents
Customer Response Time	< 4 hours	Inquiry to quotation turnaround during business days
Shipment Tracking Updates	Real-time	GPS-enabled tracking with automated status notifications

8. QUALITY ASSURANCE & COMPLIANCE

Halyk Petroleum maintains a comprehensive Quality Management System (QMS) aligned with international standards to ensure consistent product quality and operational excellence.

8.1 Certifications & Standards

- ISO 9001:2015 – Quality Management System
- ISO 14001:2015 – Environmental Management System
- ISO 45001:2018 – Occupational Health & Safety Management
- API Q1 / Q2 – Quality Management for Petroleum Industry
- ASTM, EN, and GOST product specification compliance
- Kazakhstan Republic petroleum regulatory standards

8.2 Inspection & Testing Protocol

All products undergo rigorous testing at multiple stages: incoming crude assay, in-process quality monitoring, and final product certification. Third-party inspection by SGS, Bureau Veritas, or Intertek is available upon client request.

8.3 Regulatory Compliance

- Full compliance with Kazakhstan Export Control regulations
- Adherence to EU REACH and CLP regulations for European-bound products
- Compliance with MARPOL Annex VI for marine fuel sulfur content limits
- Environmental impact assessments for all exploration and refining operations

9. HEALTH, SAFETY & ENVIRONMENT (HSE)

Halyk Petroleum is committed to achieving zero-incident operations through a proactive safety culture, rigorous risk management, and continuous environmental stewardship.

9.1 Safety Management

- Implementation of Process Safety Management (PSM) across all facilities
- Regular HAZOP studies, risk assessments, and emergency response drills
- Mandatory safety training for all personnel – minimum 40 hours per annum
- Personal Protective Equipment (PPE) compliance monitoring
- Incident reporting, investigation, and root cause analysis protocols

9.2 Environmental Protection

- Emissions monitoring and reduction programs (SO_x, NO_x, CO₂, VOC)
- Wastewater treatment and zero-discharge targets
- Spill prevention and containment systems at all facilities
- Waste management hierarchy: reduce, reuse, recycle, dispose
- Biodiversity protection measures for exploration license areas

HALYK PETROLEUM TARGET: ZERO FATALITIES • ZERO MAJOR INCIDENTS • ZERO ENVIRONMENTAL RELEASES

10. PROJECT TIMELINE & MILESTONES

Phase	Activity	Duration	Deliverable
1	Contract execution & kick-off	Week 1–2	Signed agreement, project plan
2	Crude oil sourcing & procurement	Week 3–6	Supply chain confirmed, crude assay
3	Refinery scheduling & production	Week 7–14	Production run, batch testing
4	Quality certification & inspection	Week 15–16	COA, third-party inspection reports
5	Logistics coordination & loading	Week 17–18	B/L, shipping documents, ETA confirmed
6	Transit & delivery	Week 19–22	Delivery confirmation, customer acceptance
7	Post-delivery support & reconciliation	Week 23–24	Final invoice, performance report

Note: Timeline is indicative for a standard FOB supply cycle of 50,000 MT. Actual timelines may vary based on product type, volume, destination, and market conditions.

11. COMMERCIAL TERMS

Pricing Basis:	Platt's / Argus benchmark ± negotiated discount/premium
Currency:	USD (United States Dollar)
Payment Terms:	Irrevocable SBLC or confirmed DLC, 30 days from B/L date
Incoterms:	FOB, CIF, CFR, DAP – as agreed per contract
Minimum Order:	Per product category – see Section 6.2
Contract Duration:	12–36 months, with renewal option
Force Majeure:	As per ICC Force Majeure Clause 2020
Governing Law:	Laws of the Republic of Kazakhstan / English Law (by agreement)
Dispute Resolution:	ICC Arbitration, London or Singapore
Insurance:	Marine cargo insurance at 110% CIF value (Institute Cargo Clauses A)

12. APPROVAL & SIGNATURES

This Approved Official Scope of Work has been reviewed and authorized by the undersigned representatives of Halyk Petroleum LLP. This document is effective from **September 21, 2026** and shall remain valid for the period specified herein.
